# Assessing Risk in Young People with Mental Health difficulties

## *A Paediatric Simulation Training Course*

| | |
|---|---|
| ***Date*** | *Friday 16th June* |
| ***Session time*** | ***10am to 4pm (face-to-face)*** |
| ***Venue*** | *Clinical Simulation Centre, Level 4 Nurses Home, Great Ormond Street Hospital* |
| ***Price*** | *Free for GOSH staff (4 spaces)*<br>*£150 for external candidates (4 spaces)* |
| ***Who should apply*** | *Any patient-facing hospital staff who informally or formally assess risk or encounter risk in the young people they see* |

This course will combine essential teaching in mental health assessment with interactive simulations that afford attendees the chance to practice assessing and communicating with young people with mental health difficulties, while keeping in mind the needs of parents and other members of the MDT. Attendees with leave with the capacity to:

- Judge what information is relevant to provide when referring to child and adolescent psychiatry/psychology
- Formulate a risk assessment of children and adolescents presenting with mental health problems in paediatric settings
- Demonstrate an understanding of the legal framework for children and adolescents presenting with mental health problems

***Internal candidates to book your place please email simulation@gosh.nhs.uk***
