

Chronic Granulomatous Disease Day

Thursday 25th January 2024

Host

Dr Reem Elfeky- Great Ormond Street Hospital
Prof.Siobhan Burns- Royal Free Hospital

09:30 – 10:00	Clinical and molecular aspects of CGD	David Goldblatt- Professor in immunology- ICH/UCL
10:00-10:30	New insights into pathogenic mechanism of CGD	Taco Kujipers- Professor in Immunology- Netherland
10:30-10:45	Newborn manifestations of CGD- GOSH experience	Helen Braggins- Paediatric immunology CNS (GOSH)
10:45-11:00	Living with CGD with conservative management	Patient representative from CGD society
11:00-11:15	Living with CGD after HSCT	Patient representative from CGD society
11:15-11:30	Coffee break	
11:30- 11:50	Carriers of XL CGD- disease manifestation and management approach	Susan Tadros -Immunology consultant- Royal Free Hospital- London
11:50-12:30	Gut disease in CGD Diagnostics and use of biological therapy	Kelsey Jones -Gastroenterology consultant- GOSH David Lowe - Immunology consultant-Royal Free Hospital- London
12:30-13:00	Lunch break	
13:00-13:30	How to diagnose and manage infections in CGD in the era of metagenomics	Steve Holland- Professor in paediatric immunology- NIH- USA
13:30- 13:45	Peri-transplant management and transplant outcome in paediatric cases with CGD	Robert Chiesa- Paediatric BMT consultant-GOSH
13:45-14:15	Peri-transplant management and transplant outcome in adolescents/young adults with CGD	Ben Carpenter/Emma Morris Adult BMT consultant- UCLH- London
14:15-14:45	Future and challenges of gene therapy in CGD	Claire Booth- Professor in paediatric gene therapy- ICH/UCL-London Jinhua Xu-Bayford- Paediatric immunology CNS
14:45-15:00	Outcome of long-term conservative approach in CGD	Siobhan Burns- Professor in immunology- ICH-UCL
15:00-15:15	Long-term outcome post-HSCT for patients with CGD	Reem Elfeky- Paediatric Immunology consultant- GOSH
15:15-15:30	Patient's pathway from Presentation to Cure	Helen Braggins- Paediatric immunology CNS
15:30-16:00	Discussion and coffee break	
16:00-17:00	Interactive case presentations and blot reading	Kimberly Gilmour- Clinical immunology lab lead- GOSH
17:00-17:30	Closing remarks
