ACUTE PAEDIATRIC ARRHYTHMIA COURSE

A one-day, in-person course led by paediatric electrophysiologists, focusing on the practical management of arrhythmias in neonates, infants and children. The faculty will work through a series of interactive real-life case scenarios, with emphasis on the acute step-by-step management of neonatal and paediatric arrhythmias in various settings ranging from the emergency department and intensive care unit to the inpatient ward and outpatient clinic.

AREAS COVERED

- Paediatric Tachycardias
- Arrhythmias in ICU
- Neonatal Arrhythmias
- Inherited/Acquired Arrhythmias

Aimed at Paediatric, A&E, PICU and NICU doctors and nurses involved in the acute management of arrhythmias

Course Directors

***Dr Leonie Wong**, Consultant Paediatric Electrophysiologist, Royal Brompton Hospital*

***Dr Will Regan**, Consultant Paediatric Electrophysiologist, Evelina Children's Hospital*

Friday 13th November 2026
09:00 to 16:45
